NOTE: Do not put the Welcome to ISPOT Ethiopia text twice on the page. It is redundant, and it looks awkward. The text to the right of the picture is sufficient.

**Comment [M1]:** It's good to use keywords multiple times in the text for Google ranking and reader understanding.

**Comment [M2]:** You need to put this in the active voice instead of the passive. If you take action with your words, people will take action by joining your efforts.
